## ■ New system for publication

On Tuesday, 6 December, the Riksbank will begin using a new electronic system, Observer Online, for the distribution of, for instance, press releases, speeches, minutes of monetary policy meetings and statistics. All information will be released through this system first, in order to ensure simultaneous provision of information. Distribution through other channels, such as the Riksbank's website and at the Riksbank's entrance, will occur immediately afterwards, with a small delay.

The new service enables the Riksbank the possibility to offer e-mail distribution. If you wish to register for this service, please contact: [preenumeration@riksbank.se](mailto:preenumeration@riksbank.se), stating what information you wish to receive.
