■ Riksbank exchanges EU payment

Sweden's EU membership entails monthly contributions to the EU's budget. These payments are made in Swedish kronor by the Swedish government and exchanged into euro in the foreign exchange market by a recipient central bank within the EU.

The Riksbank has decided to exchange the EU payment at the end of February/beginning of March 2009. The amount, SEK 3.03 billion, is very large, while liquidity in the foreign exchange market is still assessed as under strain. This exchange does not have any monetary policy purpose. The effect on liquidity in the banking system is neutralised by means of an FX-swap. The Riksbank intends to repurchase the corresponding euro amount in the foreign exchange market within a month of the exchange. This will be done by means of daily purchases.
