Transport from and to Arlanda airport

People arriving at Arlanda airport can choose between a train, taxi and bus transfer.

Taxi companies charge different but fixed rates for rides from the airport. Taxi Stockholm, Taxi Transfer, Taxi Kurir and Taxi020 are larger companies and charge approximately SEK 500. Travel time is approximately 35-40 minutes. Note that most taxi companies charge a higher fixed rate or variable rates for rides to the Airport.

The Arlanda Express train departs every 15 minutes and costs SEK 240 one way and SEK 460 for a two way ticket. Travel time to the Central Station ("Stockholm City") is 20 minutes. From the Central Station it is a 10 minutes walk to the Scandic Sergel Plaza Hotel. <http://www.arlandaexpress.com/>

Buses ("flygbussarna") cost SEK 119 for a one way and SEK 219 for a two way ticket. Departures are more or less continuous but at least every 10 minutes. Travel time is 40 minutes to the Stockholm Central Station.

Transport in the city

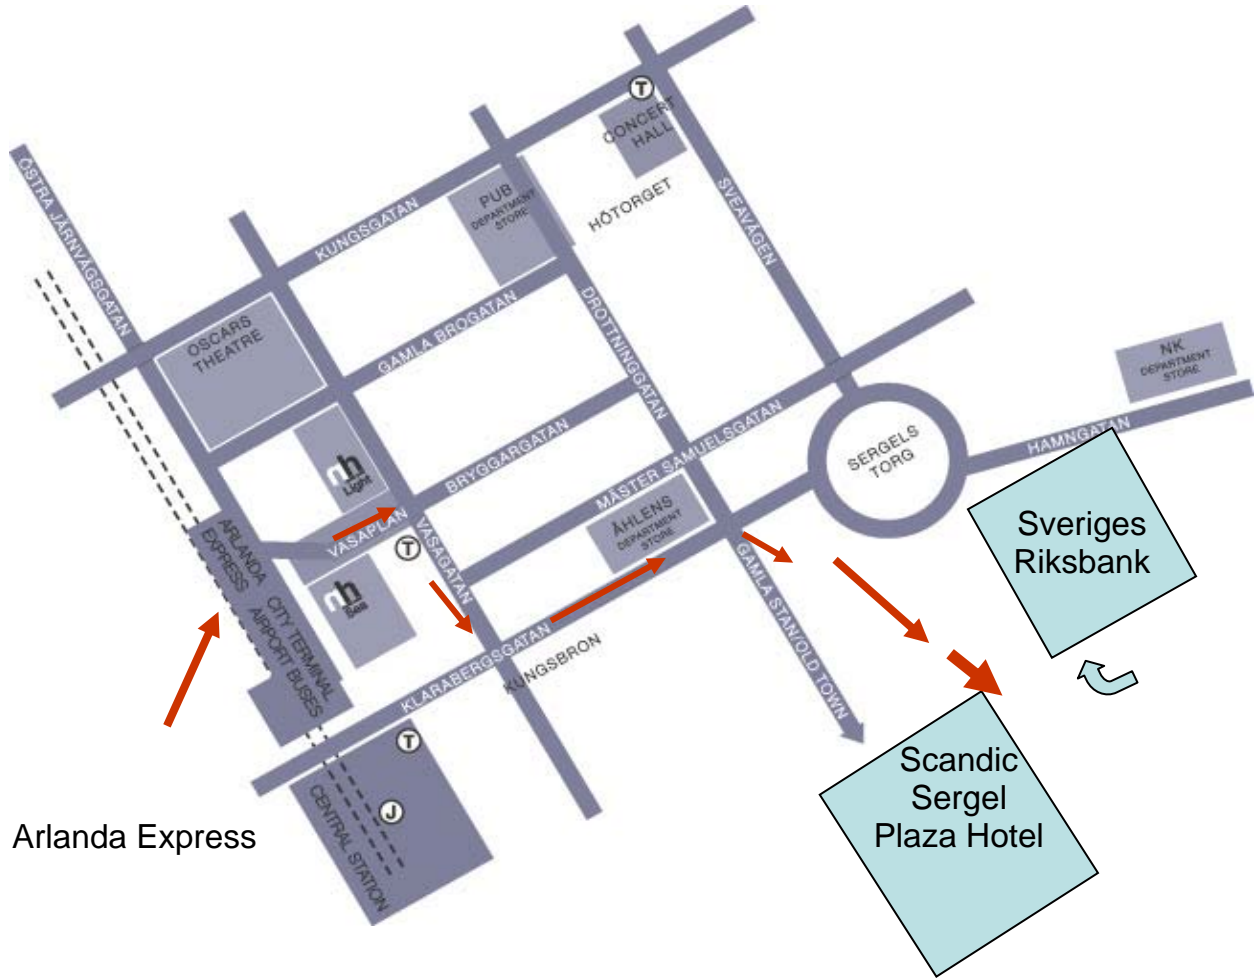

Stockholm has a well functioning public transportation system, including three subway lines. A range of reduced fare cards, with coupons or multi-day cards can be purchased at the SL Center in the ticket halls of the T-Centralen subway station at Sergels Torg and at the Central Station in the lower hall. For more information check www.sl.se.

Tourist information

The Stockholm Visitors Board has a website with extensive information about museums, the archipelago, culture, other attractions and the "what's on" agenda: www.stockholmtown.com
